# Safety, it's part of our

Rock climbing is not without its risks. In the great outdoors, preparation and prevention are the key to a safe and enjoyable experience. Put all the chances on your side; make safety your priority.

## BEFORE YOU GO

Rock climbing requires technical skills. Before your first outing, take a course with an instructor certified by the Fédération québécoise de la montagne et de l'escalade (FQME) and invite experienced climbers to accompany you.

Choose a climbing site that suits your technical level and experience, and those of your fellow climbers.

Use the area's climbing guidebook and the park's official map in order to properly plan your outing.

#### RECOMMENDED EQUIPMENT

Check the weather and adjust your objectives accordingly. Do not climb if rain or thunderstorms are in the forecast.

Dress appropriately for the season.

Bring along the essentials: a means of communication, water and food, a headlamp, the climbing guidebook for the area, a first aid kit, and contingency supplies.

Prepare your climbing equipment and make sure that everything is functional and in perfect condition. Climbing equipment should comply with UIAA standards.

Inform a close friend about your outing and its duration. This person will be your guardian angel and can notify emergency services should you go missing.

Understand the rules and regulations. Get a pass at the park entrance or online.

It is recommended that at least one member of the group have a current first aid and CPR certificate.

Solo climbing without equipment is prohibited by FQME regulation.

# WHEN OUT CLIMBING

Write down the emergency contact number and the procedure to follow when in areas without mobile phone coverage.

Obey the signs, including those on the approach. Do not take shortcuts.

Wear closed-toe shoes for the approach and when belaying

- O Climbing helmet and appropriate rock climbing equipment (UIAA)
- Closed-toe shoes for the approach and belaying
- Clothing suitable for the activity and season
- Warm coat for breaks  $\bigcirc$
- Waterproof windbreaker
- Fully charged phone and a whistle
- O Headlamp and extra batteries
- Climbing guidebook for the area
- A sufficient amount of water and food
- **O** First aid kit
- Sunglasses and sunscreen
- Insect repellant
- O Lighter
- O Hand sanitizer
- O Toilet paper
- O Garbage bag

In bouldering, make sure you have an adequate landing surface (crash pad and sufficient space) and know how to spot your partners.

Leave early enough to complete your activity before dark. Have the necessary equipment to remain safe after sunset in case of unforeseen circumstances.

Conserve your energy by taking regular breaks. Use this time to eat and drink.

## WHEN YOU RETURN

Let your guardian angel know once you are back.

Let park staff know of any breakage or potentially dangerous areas observed during your visit.

These tips are provided by Québec's regional parks, in collaboration with the Fédération québécoise de la montagne et de l'escalade and with the financial support of the Québec government.
